

10.04.2013 New Age Christian Church/Carol Pate Psychic Center Meeting

Earth is a place of learning, and growth. There are tests, lessons, and evils on this plane that are here to help us grow and evolve. Earth isn't always a peaceful and wonderful place to be, but our attitude can make us or break us.

Spirit Guides

- They'll cry with you, mourn with you, and be sad with you
- They'll never scold you, never get disappointed in you, never chastise you
- They appear as white sparkles, and they'll come with a scent (either floral or sandalwood)

Energy

- We are made up of energy
- We can transmit energy
 - We can transmit negative or positive energy
 - Our energy that is transmitted can harm others or better others
- You don't have to be a psychic to be psychically aware of others' energy

Don't want someone in your life?

- Visualize the other person standing in front of you with cords between the two of you
- Take a brand new, very sharp pair of shears and cut the cords
- Cauterize your cords and tuck them back into you, and then cauterize their cords and tuck them back into them
- You can't dwell on it- you have to get them out of your head and move on.
 - You have to want it, badly.
 - You have to let the past be in the past. If you dwell on it, you can re-cord.
 - Forgive them, and release them with love on a soul level, and ask for their forgiveness on a soul level
- If you can truly do it, you'll no longer have any connection to them. It'll be like they're a stranger to you

Senders

- Some people's gift is sending energy and thoughts
 - Psychic vampires do this
- They hook into you, feed off of your energy, and can attach to you
 - They can compel you to do things that you may not want to do
 - They'll compel you to think about them 24/7... You can't get them out of your head and it's torture
- These people are demonically controlled by lust demons

Dreams

- Dreams are our brain's way of working out psychological junk that you accumulate
 - You usually don't remember these
- Very vivid dreams with a lot of details and color, like you're in a movie are prophetic dreams.

10.04.2013 New Age Christian Church/Carol Pate Psychic Center Meeting

- You may have very vivid dreams of an earthquake, or a tornado in a specific location
 - You can't do anything about these
 - They're meant to prepare you and warn you, and you can in turn warn others
- You may have a dream of a specific person getting into a car wreck after getting into a white car wearing a red shirt
 - You can warn that person not to wear the red shirt in the white car, and it can avert the accident
 - You may not 100% avoid the accident, but you'll be able to reduce the severity of the accident
 - The conditions should be avoided for about two weeks
- If you have a dream
- Most prophetic dreams take about three days to come to fruition. Some can take up to a couple of years to happen.
 - If you can see what is causing the problem, you may be able to help avert the situation
 - The purpose of prophetic dreams is to either prepare you for the coming situation, or allow you to change the situation.
- Dreams can be symbolic, so pay attention to the symbolism of the dream.
 - You can set your symbology
 - Write your symbols down, then have someone read them back to you
 - When they read it back, tell them the first thing that comes to mind
 - Some symbols are set
 - Cars and vehicles represent your body
 - When someone else is driving their car and you're in the car, you're not handling your life and you're letting someone else drive your life
 - When someone else is driving your car, you've let someone come into your life and take control of your life and your body
 - Dreams with nudity mean that you're afraid of being embarrassed
 - Dreams with people have various reasons and purposes
 - Dreams with loved ones who have crossed over are visitations. These are real. If they look great and healthy, they're in the light. If they look sick or unhealthy or need help, you should pray them into the light.
 - When you dream of people who are still alive, they're reaching out for either positive or negative reasons
 - If it's negative, slam a very heavy metal garage door between the two of you or command them to leave you alone.
 - Animals in dreams will convey messages. To interpret these dreams, you should consult *Animal Speak*
- Recurring dreams can be past life remembrances

10.04.2013 New Age Christian Church/Carol Pate Psychic Center Meeting

- Sleep paralysis can be evidence of a haunting or of a demonic attack. It's often more connected with phenomena than with other explanations
 - Demonic attacks can occur in dream state. If this happens, command the entity away in the name of Jesus Christ.

Spirits and Reincarnation

- Human spirits usually last around 200 years
- Carol has encountered shamans from the Mayan and Incan eras who showed up for specific purposes
- Your soul is immortal, and it reincarnates many times over
 - You don't reside in Heaven for eternity
 - The whole point is to keep learning, keep growing, keep evolving
 - If you're not growing, learning, and evolving, you'll *de-evolve*
- You can incarnate from the Light or from the Outer Darkness, usually around every 60 years
 - Incarnating from the Outer Darkness is a crapshoot- you don't know what you're going to get
 - Incarnating from the Light gives you a heads up and allows you to choose your parents, your lessons, your opportunities

Why did God create us?

- God is a constantly learning, intelligent force
- He didn't want to be alone
- We are all part of God. We carry God within us, in our souls.
 -

What happens when you go into the Light?

- There's a huge reunion where family, friends, animals, and loved ones show up. There's food and beverage... It's a party!
 - If they didn't go into the Light, they won't be there
 - Just because you're married here doesn't mean that you'll be married on the other side
- Then, you go through a Life Review
 - You do it to learn and understand your lessons
- Next, you get some time out!
 - You can travel anywhere in the world you want to go!
- Then, you choose your next life's obstacle course
- Everything that's in heaven is here! Pizza, pasta, chicken... you name it!

Death

- You have a specific moment, down to the second, when it is your time to go
- You may have pivotals, where you feel like you could live or you could die, and the decisions made during pivotals can shorten or extend your life span
 - You may have no pivotals, you may have 6 pivotals
 - You don't get 7 pivotals, though. 6 is the max

10.04.2013 New Age Christian Church/Carol Pate Psychic Center Meeting

- When it's a person's absolute time to go, however, they may start to prepare about two weeks in advance. They'll say their goodbyes, pick out their outfits, etc.
 - Angels or grandparents may come visit children
 - Children who pass young tend to have lived full lives, have been very outgoing, and tend to have packed in as many experiences as possible
- If it's truly their time, you can't stop someone from passing

Suicides

- For more information, please click [here](#)
- If a person who has committed suicide asks for your help, or if one of their loved ones ask for help, you can pray them into the Light

Formulas

- Formulas are first and foremost prayers
- Prayer formulas are spiritual word mixtures that are most effective for accomplishing something
 - The formula for healing is different for the formula for removing spirits
- Stick to the formulas for the best results
- Manifesting, for example, is something that you must be very cautious with
 - Be sure to include the phrases "to the highest good of all involved", "if it's deemed appropriate" and "so that no harm comes to myself or others"
 - These phrases are your spiritual insurance to make sure that you're not bringing more harm than good to yourself or anyone who may be involved with the process
 - If you're manifesting a car, make sure to ask that it be "mechanically sound"
 - If you're manifesting a job, set your minimum salary, how far you're willing to travel, and be sure to include the following phrases "harmless to all involved" and "to the highest good of all involved"
 - Don't absolutely define what you want and make it exact, but set parameters that you want
 - Be as specific as possible without limiting the possibilities
