

12.5.2014 New Age Christian Church/Carol Pate Psychic Center Meeting

*Hey- you! Have you started to **Build Your Authority**, yet?*

HIV

- Carol brought the HIV virus through a medium in the early years (1986-1987) of her spiritual work
- The virus explained that it was manmade, that it had been on Earth before, and that its purpose was to teach all other viruses and bacteria how to change their DNA/RNA and how to mutate
 - The virus explained that there will be superbugs and super-viruses that would result out of the HIV teachings
- Bacteria and viruses are all intelligent, but bacteria aren't as smart as viruses
- Carol is capable of putting HIV in stasis through prayer work

Psychometry

- Carol uses this tool to tap into information
- It's the ability to touch into a photograph or writing sample (in ink) to obtain information about the subject
 - The subject can be a person or a place
 - It can't be an abstract concept like a country, but she can tap into leaders (because they have authority over the country)
- Psychometry involves "tuning into" the subject's signature energy frequency and allowing yourself to become one with that energy frequency
- It's very helpful to control the rate at which you obtain psychic information
- Sometimes, the person that Carol is "tapping into" will know that they're being "tapped into", but most of the time they aren't aware of it
- She's not tapping into their subconscious, she's experiencing things firsthand (as the person she's tapping into)
 - She experiences and can recall minute details, like license plates, locations of hairs or other genetic material, and names
- Carol also has the gift of being able to see past lives

Blood & Family Curses

- They don't necessarily activate at birth, but at an anniversary
- The person to lay the curse is usually the last one to receive it

Money Matters

- Carol's guides have continued to advise her to stay out of the stock market
- Roth IRA accounts are recommended for money management

Past Lives

- If you have a strong obsession or drawing to a place or a time period, you had a past life there
- If you have a strong aversion to a place or a time period, then you probably had a negative experience in your past life there

12.5.2014 New Age Christian Church/Carol Pate Psychic Center Meeting

- It's also possible that you have a spirit attached to you from those places, so say the **daily lifting** to clear yourself

Names of God

- There are 72 names of God and 72 different emotions, each name correlating with a different emotion or attribute
- Each name of God is a different attribute of God
- Each name has a specific legion that has authority for that particular attribute
- Evil came as a result of names of God falling.
 - God didn't create evil
 - Falling away from God created evil
 - Falling away from God results in becoming the complete opposite of what God intended that aspect to be
- The more you evolve, the closer to God you become
- God is simplicity. The complexity of God is that there are many Divine Beings who assist in His work

Knowledge brings Responsibility

- You can't play in the Dark and walk in the Light- you have to walk the walk.
- You don't need a third party (like a church) to get to God. You're a child of God, and you have the right to go straight to source

How do you help create spiritual growth of the people around you?

- You can't- it's their right to go in whatever direction they want to
- It's wrong to shove our belief systems down others throats
- The best way for you to help another human being is by showing them an example and **walk your talk**
- There are a whole lot of wannabes who will take your money and take you on a path that's not to your highest good.
 - Sometimes, people have to walk a path that is "wrong" to teach them that it is "wrong"
- You can say prayers for others
 - You can ask for their highest good, and that they be on their highest path for their most appropriate learning in the name of Jesus Christ
 - If you **have their permission**, you can do the daily lifting for them

Opportunities

- If you're ever given an opportunity and you're unsure if it's an opportunity from God or something sent by the **dark side**, you can say the following prayer
 - God, if this is appropriate for me, I ask that all be opened and that the path be opened for me. If this isn't appropriate for me, I ask that this be shut down in the name of Jesus Christ.
- If it's too good to be true and it doesn't feel right, shut those opportunities down.

12.5.2014 New Age Christian Church/Carol Pate Psychic Center Meeting

- If you have more than one opportunity and you're having trouble deciding, you would say the following prayer:
 - God, I'm having trouble deciding which situation [name your possibilities] I should choose. I would ask that the path that's to my highest good and to the highest good of all involved become clear. If I am supposed to do [option #1], I ask that all doors be opened to this situation and that all doors to [option #2] be closed. If I'm supposed to do [option #2], I ask that all doors be opened to this situation and all doors to [option #1] be closed. I ask this to be done in the name of Jesus Christ and I thank thee.
