

Enochian Symptoms and Formula

Enochians (E-Noch-You-Ins) are fallen Holy Sephiroths that were bound and perverted, against their will. This was done through the misuse of the magic of the Keys of Enoch by ancient priests, primarily Atlantean and Egyptian. The Keys of Enoch were turned into what is now known as Enochian magic, which goes against God. Holy Sephiroths are creator angels, so fallen Holy Sephiroths (Enochians) are focused on destruction. Because of their high nature, Enochian entities will not be removed by the Daily Lifting.

Enochian infestations can sometimes begin with the arrival a black egg that cracks open and glows red, although this will not always be seen.

The physical symptoms of an Enochian attack are as follows. You do not have to experience all of the symptoms for it to be an Enochian attack, but the symptoms can range anywhere from headaches to (what appears to be) spinal meningitis. If you experience a headache similar to what is described below, it is wise to use the prayer formula as soon as possible.

- *A band, 2 inches wide, located above the eyes, above the ears, all the way around the head will appear and begin to tighten. Headaches will begin.*
- *This headache will create electrical nerve pain that shoots down the back of the neck into the shoulders.*
- *A high fever can develop, 103-105°F is common.*
- *All of the symptoms of spinal meningitis can present, including convulsions*
- *Death can occur*

To remove an Enochian, use the following formula. After using this formula, all symptoms will be instantly gone.

I would please ask the Archangel Raphael and his legions to remove all Enochians and their residue from me now, in the name of Jesus Christ, and place them into appropriate protected sanctuary, and I thank thee.

After using the Enochian formula, you state the following out loud so that they cannot and will not return:

All Enochians I have bound, knowingly and unknowingly, from all past lives through present, I ask for forgiveness, and in turn, I forgive all Enochians, in the name of Jesus Christ.
