

Surgery Prayers

Anesthesia leaves us wide open spiritually, but there are times in our lives when going under general anesthesia is medically necessary. Should you find yourself or a loved one in this situation, it is wise to say the following prayers.

Make sure to get the doctor's name, the time of the procedure, and the address (floor and room if at all possible) of where the procedure will be taking place. If you're praying for a friend or loved one, make sure to obtain their permission (if they are unable to give permission, then the closest relative- by blood or marriage- can give permission). If they're under 13, you'll need to obtain a parent's permission.

*It would be wise to say the **daily lifting** over yourself or the patient on a daily basis while you/they are on pain medication.*

I would please ask the Band of Mercy to please clear all doctors and nurses, including (doctor's name, anesthesiologist's name, and any other names that you have) who will be performing my (or the name of whoever you're praying for) procedure that will be taking place at (time of procedure) at (location of procedure), and take whatever was attached to them into the Light or into appropriate protected sanctuary in the name of Jesus Christ and I thank thee.

I would please ask the Divine Spirits of Healing to be with myself (or with whomever you're praying for) during the procedure to lessen pain and promote quick healing, and after the procedure to ensure that I (or they) heals and is whole and in the state that God originally intended thee to be. I ask this to be done in the name of Jesus Christ and I thank thee.

I would please ask the Band of Mercy to please clear myself (or the name and location of the person you're praying for) after the procedure of whatever might have attached to me (them), and either take them directly into the Light or into appropriate protected sanctuary in the name of Jesus Christ and I thank thee.
