

## Suicide

Suicides, even medically assisted suicides, are considered self-murder. Suicide breaks spiritual law and can cause you to be bound to the Earth plane for a specific period of time (usually until it is your natural time to go).

It's very important to note that suicide is NOT a mental illness. Presenting suicide as a mental illness suggests that, if a parent or relative commits suicide, then there is a hereditary component in your DNA and that you are condemned to commit suicide as well. This is *false*. Chemicals, food allergies, bad programming from childhood, bullying, low self-esteem, painful mental and emotional ordeals, physical trauma can all contribute to a state of depression that leads to suicide. Spirit possession and demonic attack can lead to suicide as well, because the voices in the person's head will tell them to end it, end their pain, or kill themselves.

If someone you love has committed suicide, you should first pray them into the Light using the following formula:

*I would please ask the Band of Mercy to locate (name of loved one) who lived at (street address, city, and state of loved one).*

*I would ask for spirit healers and loved ones to be brought forth for (him/her) and if (he/she) is willing be taken directly into the Light. If (he/she) is not willing I would ask that (he/she) be placed in the appropriate sanctuary and that the teachers and loved ones be allowed to work with (him/her) until (he/she) is prepared to go into the Light.*

*If this is deemed appropriate I ask this to be done now in the name of Jesus Christ and I thank thee.*

You should then say this prayer, as a means of removing the legacy of suicide from yourself. This can also be useful, in conjunction with the Daily Lifting, if you have ever experienced suicidal thoughts.

*I would please ask Archangel Michael and his legions to remove any demons of suicide and the legacy of suicide from myself and my family (or the name and address of the person you have permission to pray for) now and place them into appropriate protected sanctuary in the name of Jesus Christ and I thank thee.*
