

## 2.6.2015 New Age Christian Church/Carol Pate Psychic Center Meeting

*Attitude is everything!*

### The Power of Words

- People don't recognize that words carry specific vibrations that people often misconstrue. We take words for granted!
- The Spirit Community recognizes the *true, textbook definition* of words, not *what we think words mean*
  - Care is a great example. We often use it in a positive way, but the definition connotes worry, anxiety, or concern
- Words carry power!
  - *Irritation* brings sinus issues
  - *Pain in the neck* brings pains in the cervical region
  - *Damning* is REAL! Damnations are REAL!
  - *Trust* should be rare! You shouldn't hand out your trust and it should be earned. If anyone tries to trigger guilt in you by saying "you don't trust me? What have I done to lose your trust?!" you're probably about to be conned.
- Prayers are formulas, and these terms are interchangeable

### Guides and Teachers

- See **God's Spirit Community** for more information about this
  - They are our caregivers!
- Always ask for a "guide of" or "divine spirit of" whatever you need, but be sure to add "or whatever is deemed appropriate" to leave the door wide enough open to get the best results possible!
- It's important to **build your authority** with the spirit community, so that you can get the most appropriate help for your situation. The more you build your authority, the better results you'll have!
- If you have a lost animal, you can ask the Legion of Pan to bring your animal home safely in the name of Jesus Christ

### Hand Placement for Prayers

- **Click here** for more information
- We pray with our hands open and out to send and receive the most energy
- When you pray with your hands closed, you close yourself off to the energy

### *Heal Your Body* by Louise Hay

- You can use *HYB* to identify the psychological root of illnesses and injuries
- Look at right side versus left side, the body part affected, and the illness/injury specifically
- Use **kinesiology** to confirm your suspicions
- When you identify an issue or something seems particularly relevant to you, use the first two fingers on your right hand and tap the area twice to release it
- When you get tingles, it's cured!
- Part one, 28:00 to 31:00 shows this in action
- *Arthritis is based in guilt & resentment*

## 2.6.2015 New Age Christian Church/Carol Pate Psychic Center Meeting

- For more information about relief from fibromyalgia, please click [here](#)

### Autism

- Autism is caused by the child being born without their soul being fully sealed into their body, possibly because of a lack of DNA/RNA integration prior to birth
  - Beginning at six months gestation, the soul begins to enter the physical body for periods of time to begin to adjust
- To cure true autism, you would use **the soul cleansing formula**. This formula also works well for “bad seeds”. With both situations, the earlier in life you do this formula the better.
- Vaccines DO NOT cause autism. This happens at BIRTH.

### Adoption

- When people adopt children, the child intended to go to the birth parents
- There are lessons involved for all parties

### Nature/Legion of Pan

- If you're going to be pulling weeds, go out about 24 hours before and tell them that you'll be pulling and that they should release their roots
- Ask that the Legion of Pan do whatever they deem necessary to protect your garden and, in return, offer 20% of the garden to nature for whatever purposes necessary
- The Legion of Pan is nature's spirit community, and Pan is nature's archangel
- You can ask the Legion of Pan to reroute ants, water bugs, roaches (or whatever you have issues with) away from your house in the most appropriate way in the name of Jesus Christ... You can't ask that they leave your property because they have the right to be in nature, but you can keep them from your dwelling.
  - If they don't leave your dwelling, you can send them into the Light
- You can look up the meaning of the animal species in *Animal Speak* by Ted Andrews to see what information they're trying to tell you
  - Black spiders, black snakes, black bears, black dogs, and pigs can all be representations of the **demonic** in your dreams

### Thanksgiving

- Thanking God for everything you receive and asking for help in what you try to give really makes your life flow easier
- Gratitude shown to each and every situation is a wonderful thing
  - It is particularly important to express gratitude to plants and animals that you consume
- Ask for help in understanding lessons and situations, then give thanks for the growth that occurs as a result
